

SAN DIEGO LAFCO

SPECIAL MEETING
JUNE 15, 2026

SAN DIEGO LAFCO

Agenda Item No. 6a

**Proposed Final Report | MSR Carlsbad Subregion Part 1:
City of Carlsbad & Carlsbad Municipal Water District**

6/15/2026

PROPOSED FINAL REPORT • MUNICIPAL SERVICE REVIEW

Carlsbad Subregion

Part I — City of Carlsbad & Carlsbad Municipal Water District

City of Carlsbad

Carlsbad Municipal Water District

Independent Evaluation of Municipal Services

Availability

What services exist and the capacity behind them

Demand

Current and projected community service needs

Performance

How services are delivered relative to those needs

Purpose of an MSR

Inform sphere of influence updates

01

Guide future jurisdictional changes

02

Identify issues for future attention

03

SCOPE

Two-Part Review of the Carlsbad–Encinitas Region

PART I — TODAY

Carlsbad Subregion

City of Carlsbad

Carlsbad Municipal Water District

PART II — DRAFT IN OCTOBER

Encinitas Subregion

- City of Encinitas
- Leucadia Wastewater District
- Olivenhain Municipal Water District
- San Dieguito Water District

PROGRESS SINCE APRIL

What Staff Has Completed

45-day public review

Public notice published

SDAC review

Final report returned

Four overarching themes

Theme 1

From growth to stewardship

maintaining infrastructure and managing infill

Theme 2

Strong governance & services

strong performance across all 5 municipal functions

Theme 3

Emerging long-term considerations

aging wastewater infrastructure, public-safety costs, pensions, retiree healthcare, and capital reinvestment

Theme 4

A position of overall strength

healthy reserves, low debt, & consistent operating surpluses

Four Overarching Themes

Theme 1

Successful, stable governance

subsidiary district of the City -- separate legal status and taxing authority

Theme 2

Operational readiness & capacity

excess capacity across supply, transmission, & storage

Theme 3

Ratepayer value

rates below regional averages, despite wholesale cost increases and desalination obligation

Theme 4

Strong financial standing

Excellent liquidity, minimal debt, strong benchmarks -- operating margins have narrowed

CHANGES SINCE THE APRIL DRAFT

Substantive Revisions

Reporting-period timing gap

Attests the conclusions and recommendations reasonably hold — no addendum needed.

Airport comments addressed

Revisions responding to County and City comments on McClellan-Palomar Airport.

Retiree healthcare analysis

New analysis evaluating the City's retiree healthcare obligations – Section 6.6.

CMWD water-rate context

Added context from the Water Rate Comparator Study.

McClellan-Palomar Airport

Bears the local effects

The City absorbs service demands and surrounding impacts affecting public safety, utilities, traffic, and noise.

Holds the authority

The County controls operation and expansion decisions for the airport.

Identified as a service-and-governance condition meriting the Commission's attention — an alignment issue between local demands and operational authority.

AIRPORT • REVISED RECOMMENDATION

As revised

LAFCO should evaluate service and governance conditions at the airport and offer to convene and facilitate the County and the City — should both agencies wish — in exploring a more equitable service arrangement, so that decision-making authority and responsibility for local service effects are better aligned over time.

Why the report retains this item

A required determination

Government structure and service governance is among the written determinations the statute requires an MSR to make — explicitly a topic of relevance.

Bears on services reviewed

It touches directly on the City services this review evaluates — public safety and utility service in particular.

LAFCO's forward-looking role

Identifying governance and service conditions warranting attention before the next review cycle is core to LAFCO's mission.

Anticipates the FY29 review

Broader county-airports review tentatively placed on the study schedule in FY29.

RECOMMENDATIONS

City of Carlsbad

Direct urban growth to Carlsbad

As the region's established full-service municipality, in support of the City General Plan.

1

Encourage regional coordination

Among water and wastewater agencies to find efficiencies and improve long-term planning.

2

Evaluate airport governance alignment

Service and governance alignment issues involving McClellan-Palomar Airport, as detailed.

3

Address the SR-78 corridor

Jurisdictional and sphere-related issues, via special study areas and future technical review.

4

RECOMMENDATIONS

Carlsbad Municipal Water District

Enhance public awareness

Of the District's separate legal identity from the City.

Support recycled water planning

Backing the District's future recycled water planning efforts.

Reaffirm the sphere of influence

With corresponding study areas for the District.

Overall, the report presents a positive evaluation of both agencies — operationally stable, fiscally responsible, and well-positioned to meet future service demands.

REQUESTED ACTION

Staff recommends the Commission

a)

Accept the report

Accept the proposed final report as presented.

b)

Adopt the resolution

Adopt the accompanying resolution making the required determinations.

c)

Authorize edits

Authorize the Executive Officer to make non-substantive edits prior to publication.

**Final Report on State Planning Grant | Helping Bridge
the Economic Gap of Small-Scale Farming (SALC 2.0)**

6/15/2026

How This Project Began

SALC 1.0 surfaced three recurring challenges for regional agriculture.

Land Access

Securing farmable land

Water Availability

Reliable, affordable supply

Workforce

A skilled labor pipeline

PURPOSE

Why SALC 2.0?

Understand the economics of small-scale farming — and find ways to sustain it.

FUNDED BY

CA Strategic Growth Council

ADMINISTERED BY

Dept. of Conservation

PROTECTS

Ag land · economies · climate goals

THE GRANT

A \$500K Grant, Six Tasks

1

Grant Management

2

Market Analysis

6

**Final Report:
Cultivating Solutions**

MARKET ANALYSIS

Viable — But Fragile

OPERATING MARGIN vs. RESILIENCE THRESHOLD

Profitable today — little cushion for new pressures.

Profitability at the Farm Level

Avocados

Lemons

Tomatoes

Strawberries

Sensitive to four factors — water affordability is #1:

Labor

Prices

Yields

Water

AG-PAT

Model farm profitability under any conditions.

The Four "Seeds"

Strengthen Infrastructure

Support systems for producers

01

Grow Local Demand

Awareness & local markets

02

Cultivate Policy

A supportive environment

03

Coordinate Regionally

Partnership & advocacy

04

Where LAFCO Leads

Convene on Water

A regional ag water
advisory committee

Expand Reviews

Municipal Service Reviews

Track Progress

Annual reporting on the
action plan

The priority: *water affordability for producers.*

Connecting Water to Farmland

SUPPLY

Escondido's new recycled-water facility — low-salinity, grower-friendly cost.

DEMAND

Hundreds of acres nearby — growers have already asked.

TODAY'S ASK

Interested in exploring this?

Staff can return in August with a concept — partners, governance, and resources.

SAN DIEGO LAFCO

Agenda Item No. 7c
Comments/Questions?

6/15/2026

TABLE 5-1: Summary of Strategic Actions

Number	Strategic Action Recommendations
Seed 1 – Improve Infrastructure and Systems that Support Local Producers	
Tool 1A	Increase access to direct-to-consumer models, such as farmers' markets, food hubs, farm stands, and co-ops, by addressing barriers, streamlining permitting processes, and strengthening regional coordination.
Tool 1B	Identify opportunities to streamline the establishment of farm employee housing and explore scalable, low-cost, and flexible farm worker housing models (temporary, shared facilities).
Tool 1C	Support the expansion and promotion of the CropSWAP Program and similar incentive programs.
Tool 1D	Support the development of regional food system infrastructure (i.e. cold storage, processing, distribution centers, and packaging facilities) to reduce costs for local producers.
Tool 1E	Support local food procurement by local institutions and distributors (e.g., Sysco, public schools, County institutions) by addressing barriers and creating local sourcing initiatives that track and assess product origin to strengthen local supply chain visibility.
Tool 1F	Work with regional partners to create a centralized, multilingual user-friendly online platform to help producers navigate local regulations, access resources such as funding opportunities, permitting information, and connect with relevant agency staff.
Seed 2 – Grow Consumer Awareness and Local Market Demand	
Tool 2A	Support and expand existing efforts to develop a regional branding campaign and consumer education campaign that promotes San Diego-grown products, strengthens community connections, and encourages local purchasing programs to intensify demands for locally grown agricultural products and support a resilient, sustainable food system.
Tool 2B	Develop a coordinated outreach strategy to increase producer awareness of available programs, funding opportunities, technical assistance, and regulatory resources.
Tool 2C	Strengthen pathways into future agriculture partnerships with educational programs to support heritage farming, and cultivate the next generation of producers.

TABLE 5-1: Summary of Strategic Actions (Cont.)

Number	Strategic Action Recommendations
Seed 3 – Cultivate a Supportive Policy Environment	
Tool 3A	Ensure regulations and development standards enable on-farm marketing and direct-to-consumer systems (e.g., agritourism, farm stands, Pick-Your-Own).
Tool 3B	Promote the adoption of climate-smart land management practices that enhance soil health, use water efficiently, improve long-term productivity, soil sustainability, and create diversified revenue streams for producers.
Tool 3C	Support the protection of high-risk agricultural lands by purchasing conservation easements.
Tool 3D	Explore expanded leasing opportunities on publicly owned lands, with a focus on underserved and/or emerging producers.
Tool 3E	Develop a formal grants policy to guide future grant applications that prioritizes, and benefits farmers directly and includes opportunities for agricultural stakeholder input prior to submittal.
Seed 4 – Foster Regional Alignment and Agricultural Advocacy	
Tool 4A	Coordinate with regional partners to establish an Agricultural Ombudsman position to serve as a centralized point of contact to support producers with navigating government systems, gaining access to capital and land, grant funding, and other incentive programs and to coordinate efforts across cities and agencies.
Tool 4B	Coordinate with regional partners to establish a Regional Agricultural Water Advisory Committee to assess the impacts of state and local water policies on agriculture, advise on regulatory changes, explore targeted subsidy programs, identify tiered rate schedules, and guide research on irrigation efficiency and crop-specific water use.
Tool 4C	Develop and implement a cross-sector training and coordination program for local agency staff, organizations, and community leaders to build shared understanding of agricultural operational issues, concerns, access, and improve service delivery to producers.
Tool 4D	Expand agriculture analysis in local government planning documents to recognize the economic contribution of the local agricultural industry.
Tool 4E	Develop an implementation plan/strategy and present an annual report on the progress and status of the Strategic Actions to the LAFCO Commission and stakeholders.
