Thank you for the opportunity to review and comment on the administrative draft white paper, Homeless Services + Governance in San Diego County. This is a complex question that involves many different players, of which were not included in the compilation of the report. We request a continuance of this item to have adequate time to review and provide comment on something of such significance.

If this item proceeds to any further review, we request that stakeholders, including our jurisdiction, be involved in any discussion on alternatives that aim to improve alignment of oversight and service capacity. We are happy to participate in any evaluation process moving forward.

Respectfully,

Mandy
